

SMILE. Join our small friendly team

GROW. Opportunities for progression within an expanding team

RELAX. Benefit from our relaxed and flexible working environment

ACHIEVE. Personalised professional development support and mentoring to help you achieve your career goals

If this sounds like an environment that you could thrive in, then we would love to hear from you. For over 20-years, TPS has been providing a range of client-focussed transport planning services and support, on a wide range of projects. We are now looking to add a **Transport Planner or Senior Transport Planner** to our team, to help deliver our existing workload and support future growth.

We are looking for someone with a hardworking and progressive attitude who is willing to learn and wanting to grow as an individual, whilst supporting the business to do the same.

In return, we will invest in you as an individual, to help you develop your skills and take the next step in your career, within a supportive team environment. We will provide opportunities to work on a diverse range of development-related projects and will support you as you assume an increasing responsibility for client, project, and team management.

Key Experience and Technical Skills.

You are likely to have had 2 – 5 years' experience of working within the transport planning sector and be keen to work in a smaller consultancy environment. You will have the following skills / experience:

- Delivery of, or significant input to, Transport Assessments, Transport Statements and Travel Plans, including:
 - Use of TRICS
 - Use of Junctions and LINSIG modelling software
 - Accessibility assessments
 - Accident analysis
 - Application of parking / cycle parking standards to development proposals
- Experience of working with private and public sector clients, architects, planners and local authorities throughout the development process;

- Awareness of relevant land use and transport policy and industry standards and the ability to relate these to a specific project context;
- An appreciation of the time and budgetary constraints associated with project work;
- Excellent report writing, other written and numerical presentation skills.

The following skills, though not essential, would be advantageous to the role:

- Experience of AutoCad / Autotrack, specifically:
 - Swept path analysis
 - Experience of preparing preliminary site access / junction designs
- Experience of reviewing site layouts in the context of highway design standards
- Experience / appreciation of strategic highway modelling software

The Opportunity.

We are looking for a suitably experienced Transport Planner or Senior Transport Planner to join our team, based in Wakefield.

We will provide the following employee package to support a work-life balance and your career development:

- Competitive salary and annual pay review (dependent upon experience)
- 25 days annual leave (plus additional 3 days at Christmas)
- Flexible working arrangements and TOIL (up to 6 additional days leave per annum)
- Staff profit share scheme
- Childcare voucher scheme
- Structured training and professional development allowance

Take the Next Step.

If the above sounds of interest, we would love to hear from you. Should you wish to talk through the opportunity further, please call Georgina Stares on 07739322130, or drop an email over to georgina.stares@tpsconsultants.co.uk

Applications should be submitted by email to Georgina before the close of play on Friday 14th May. Please send your full CV, along with a covering letter which explains why you are the perfect fit for the role and TPS.
